

**Tuesday 16 May 2017**

---

**12:00-13:30 Room 242A**

**Plenary  
Coronary Interventions  
STEMI  
Focus on (Inter)National Collaboration  
Stent Save A Life!**

**GRCI@EuroPCR - Myocardial infarction (STEMI) without atherosclerotic coronary artery disease: unusual presentations  
With the collaboration of the Groupe de Réflexion sur la Cardiologie Interventionnelle (GRCI)**

Chairpersons: *Hakim Benamer, Jean-Francois Tanguay*

Panellists: *Camille Brasselet, Bernard Livarek*

**Objectives:**

To know what are the major etiologies of STEMI without atherosclerotic coronary artery disease

To discuss how to use the coronary imaging tools to determine the underlying mechanisms

To share specific interventional and medical management

- 12:03 EuroPCR welcomes GRCI - *Jean-Francois Tanguay*
- 12:02 Session objectives - *Hakim Benamer*
- 12:05 A coronary spasm with cardiac arrest - *Jean-Philippe Collet*
- 12:13 Discussion and audience interaction
- 12:25 A post-partum coronary haematoma - *Gaetan Karrillon*
- 12:33 Discussion and audience interaction
- 12:45 A toxic-related coronary thrombus - *Kamel Boughalem*
- 12:53 Discussion and audience interaction
- 13:05 A coronary dissection during pregnancy - *Pascal Motreff*
- 13:13 Discussion and audience interaction
- 13:25 Session evaluation and key learnings - *Hakim Benamer*
